The 5th International Congress on “Green Extraction of Natural Products” October 28-30, 2024. Compiègne, France

CALL FOR SPONSORS

The International Congress on “Green Extraction of Natural Products” (GENP2024) is organized by the Université de Technologie de Compiègne (France). GENP2024 is focused on **agro-food, perfume, cosmetic, nutraceutical, chemical, fuel and energy sectors**. The whole value chain of every application is considered; cultivation, extraction, purification, processing and recycling steps. The event will offer an overview of the most recent progress achieved in the extraction procedure with modern "Green" technologies for a more effective process sustainability. We welcome participants from across the globe to take part in this event which will be held on October 28-30, 2024.

For further details you can see the web page of the GENP2024 (<https://genp2024.sciencesconf.org>) Participation GENP 2024 offers a unique opportunity to meet colleagues from around the globe, GENP 2024 foresees attendance of the participants from all continents. This congress will spanned many early and mid-career opportunities for cross-nation and cross-cultural- collaboration!

We are expecting for this edition about 200 participants.

TOPICS

- Alternative solvents for green extraction
- Sustainable and clean extraction technologies
- Innovative extraction process design
- Valorization of by products and biorefinery
- Industrial and case study applications
- New tools for green extraction education and operator training

BENEFITS OF SPONSORSHIP

Support from sponsors is critical to enhancing the development of the Information systems field and Key to assisting GENP2024.

Sponsors accrue several benefits through this strategic investment:

- enhancing the visibility and reputation of the sponsor within green extraction of natural products.
- interacting with key researchers and academics who influence research directions on green extraction of natural products.
- gaining access to the people who influence hundreds of future practitioners in the field of green extraction of natural products and in so doing improving the sponsor’s recruiting advantage.
